For a generation, Jerry L. Mashaw, the most boundary-pushing scholar in the field of administrative law, has argued that bureaucrats can and should self-generate the norms that give us a government of laws. Administrative Law from the Inside Out brings together a collection of twenty-one essays from leading scholars that interrogate, debate, and expand on themes in Mashaw's work as well as on the fundamental premises of their field. Mashaw has illuminated new ways of seeing administrative law, composed sweeping indictments of its basic principles, and built bridges to other disciplines. The contributors to this volume provide a collective account of administrative law's commitments, possibilities, limitations, and strains as an approach to governance and as an intellectual enterprise.
