A monster assembled by a scientist from parts of dead bodies develops a mind of his own as he learns to loathe himself and hate his creator. Shelley's suspenseful and intellectually rich gothic tale confronts some of the most important and enduring themes in all of literature—the power of human imagination, the potential hubris of science, the gulf between appearance and essence, the effects of human cruelty, the desire for revenge and the need for forgiveness, and much more.

Frankenstein is the classic gothic horror novel which has thrilled and engrossed readers for two centuries. Written by Mary Shelley, it is a story which she intended would 'curdle the blood and quicken the beatings of the heart.' The tale is a superb blend of science fiction, mystery and thriller. Victor Frankenstein driven by the mad dream of creating his own creature, experiments with alchemy and science to build a monster stitched together from dead remains. Once the creature becomes a living breathing articulate entity, it turns on its maker and the novel darkens into tragedy. The reader is very quickly swept along by the force of the elegant prose, the grotesque, surreal imagery, and the multi-layered themes in the novel. Although first published in 1818, Shelley's masterpiece still maintains a strong grip on the imagination and

has been the inspiration for numerous horror movies, television and stage adaptations.

Mary Shelley began writing Frankenstein when she was only eighteen. At once a Gothic thriller, a passionate romance, and a cautionary tale about the dangers of science, Frankenstein tells the story of committed science student Victor Frankenstein. Obsessed with discovering the cause of generation and life and bestowing animation upon lifeless matter, Frankenstein assembles a human being from stolen body parts but; upon bringing it to life, he recoils in horror at the creature's hideousness. Tormented by isolation and loneliness, the once-innocent creature turns to evil and unleashes a campaign of murderous revenge against his creator, Frankenstein. Frankenstein, an instant bestseller and an important ancestor of both the horror and science fiction genres, not only tells a terrifying story, but also raises profound, disturbing questions about the very nature of life and the place of humankind within the cosmos: What does it mean to be human? What responsibilities do we have to each other? How far can we go in tampering with Nature? In our age, filled with news of organ donation genetic engineering, and bio-terrorism, these questions are more relevant than ever.

For readers of *Modern Lovers* and *Conversations with Friends*, an addictive, humorous, and poignant debut novel about the shock waves caused by one couple's impulsive marriage. Twenty-four-year-old British painter Cleo has escaped from England to New York and is still finding her place in the sleepless city when, a few months before her student visa ends, she meets Frank. Twenty years older and a self-made success, Frank's life is full of all the excesses Cleo's lacks. He offers her the chance to be happy, the freedom to paint, and the opportunity to apply for a Green Card. But their impulsive marriage irreversibly changes both their lives, and the lives of those close to them, in ways they never could've predicted. Each compulsively readable chapter explores the lives of Cleo, Frank, and an unforgettable cast of their closest friends and family as they grow up and grow older. Whether it's Cleo's best friend struggling to embrace his gender queerness in the wake of Cleo's marriage, or Frank's financially dependent sister arranging sugar daddy dates to support herself after being cut off, or Cleo and Frank themselves as they discover the trials of marriage and mental illness, each character is as absorbing, and painfully relatable, as the last. As hilarious as it is heartbreaking, entertaining as it is deeply moving, *Cleopatra and Frankenstein* marks the entry of a brilliant and bold new talent.

Retells, in graphic novel format, Mary Shelley's classic tale of a monster, assembled by a scientist from parts of dead bodies, who develops a mind of his own as he learns to loathe himself and hate his creator.

A young alchemist turns to dark magic when a deadly plague sweeps through her homeland, in this epic fantasy from New York Times bestselling author Beth Revis. Seventeen-year-old Nedra Brysstain leaves her home in the rural northern territories of Lunar Island to attend the prestigious Yugen Academy with only one goal in mind: master the trade of medicinal alchemy. A scholarship student matriculating with the children of Lunar Island's wealthiest and most powerful families, Nedra doesn't quite fit in with the other kids at Yugen. Until she meets Greggori "Grey" Astor. Grey is immediately taken by the brilliant and stubborn Nedra, who he notices is especially invested in her studies. And that's for a good reason: a deadly plague has been sweeping through the north, and it's making its way toward the cities. With her family's lives--and the lives of all of Lunar Island's citizens--on the line, Nedra is determined to find a cure for the plague. Grey and Nedra grow close, but as the sickness spreads and the body count rises, Nedra becomes desperate to find a cure. Soon, she finds herself diving into alchemy's most dangerous corners--and when she turns to the most forbidden practice of all, necromancy, even Grey might not be able to pull her from the darkness.
