A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “ compulsively readable parable for the 21st century ” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world ’ s most powerful internet company, she feels she ’ s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users ’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of

civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company ' s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can ' t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman ' s ambition and idealism soon becomes a heart-

racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Fully-illustrated and with a fun and innovative flip-book format, the book provides the perfect way to explore and compare the extreme environments of the two Poles. Take a trip to the ends of the earth and discover the extreme environments of the North and South Poles. Find out which animals live where, what the weather and climate is like and the effect global warming is having. Beginning with the North Pole, the book introduces the geography and climate of the Arctic. Readers will discover how climate change is affecting sea ice and why multi-year ice is so important to

walruses and polar bears. Find out what ice floes are and what lives under the ice. The many uses of the Arctic are explained, from the home it provides to whale hunters to the rocket and missile test sites it houses. And then flip the book over and you arrive in the South Pole... The famous race to reach the pole in 1911 is retold and readers will discover why the orca is the ultimate polar predator. The huge tabular icebergs, sub-glacial lakes, and ice chimneys of the Antarctic are brought to life in all their impressive glory, not to mention the sea spiders, 'death star' starfish and other undersea giants!
