AUTOMOTIVE TECHNOLOGY: A SYSTEMS APPROACH, 5th Edition remains the leading authority on automotive theory, service and repair procedures. The new edition has been updated to include coverage of hybrid vehicles throughout the text, new content on electronic automatic transmissions, preventive maintenance, and many other topics that reflect the most recent changes in the industry. Chapters cover the theory, diagnosis and service of all system areas for automobiles and light trucks, and the content closely adheres to the 2008 NATEF Automobile Program Standards. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Over the course of his long and storied career, George Mitchell proved to be much more than just that senator from Maine. He is one of the last from a sort of "golden age" of American politics, when opposing parties worked together to accomplish things for the good of the nation, rather than the good of the party. Before becoming senator, Mitchell was an attorney and then a judge in Maine. Among his many public efforts, he is perhaps known for his environmental work and his work on peace and justice, especially his brokering of the peace in Ireland and his efforts in the Middle East. Now, seasoned journalist Douglas Rooks gives us a thoughtful and highly readable look at the man and his public work. While the book traces his personal life, it is primarily a political biography, exploring his time in office as well as his public work before and after his elected terms.Compiled from extensive interviews with Mitchell as well as staffers and others who've known and worked with him, it is as much an exploration of American politics at a time when politics could actually be said to have "worked," as it is a man whose vision and ideals have helped shape the world.

By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon. Praise for *Cloud Atlas* " [David] Mitchell is, clearly, a genius. He writes as though at the helm of some perpetual dream machine, can evidently do anything, and his ambition is written in magna across this novel 's every page. " —The New York Times Book Review " One of those how-the-holy-hell-did-he-do-it? modern classics that no doubt is—and should be—read by any student of contemporary literature. " —Dave Eggers " Wildly entertaining . . . a head rush, both action-packed and chillingly ruminative. " —People " The novel as series of nested dolls or Chinese boxes, a puzzle-book, and yet—not just dazzling, amusing, or clever but heartbreaking and passionate, too. I 've never read anything quite like it, and I 'm grateful to have lived, for a while, in all its many worlds. " —Michael Chabon " *Cloud Atlas* ought to make [Mitchell] famous on both sides of the Atlantic as a writer whose fearlessness is matched by his talent. " —The Washington Post Book World " Thrilling. . . . One of the biggest joys in *Cloud Atlas* is watching Mitchell sashay from genre to genre without a hitch in his dance step. " —Boston Sunday Globe " Grand and elaborate. . . [Mitchell] creates a world and language at once foreign and strange, yet strikingly familiar and intimate. " —Los Angeles Times

Special features, such as syndicate directories, annual newspaper lineage tabulations, etc., appear as separately paged sections of regular issues.
