In this book, Microsoft Program Manager Zac Woodall shows developers and IT pros how to use the new template architecture in Access 2007 to deliver rich data-centric tracking applications. He explains what Access templates are, how they are used, and how to create them. His discussion of template design and customization includes details that every template designer should know, such as design guidelines, best practices, and advice for overcoming technical hurdles. Advanced topics include personalization,designing for SharePoint, template security, enterprise deployment, and a detailed breakdown of the template (.accdt) file format. In only 256 pages, this book helps the reader to: Design Access 2007 Templates Build Enterprise Templates for Access 2007 Implement Secure Access 2007 Templates This book comes with a bonus chapter "Customizing the Field Templates Task Pane" and five bonus sample templates, which readers can use in their own projects (Access Add-In, Access Ribbon XML, Contacts Modified, Table Creator, and Template Maker). These valuable bonus materials are available as a web site download.

This publication is an update of Rational Application Developer V7.5 Programming Guide, SG24-7672.

Small businesses figure importantly in the American economy, yet few resources exist for small business owners looking to build their credit. In The Rational Guide to Building Small Business Credit, Barbara Weltman offers an indispensable new guide that clearly explains how to build and maintain a credit profile for your company. This book covers the fundamentals of credit building, including the five C's of credit analysis and how to register your D-U-N-S(r) number with Dunn & Bradstreet. Advanced concepts include re-establishing poor credit, working with the government, and running credit checks on your customers.This book uses a rational, no-nonsense approach to give you the information you need to proactively manage your credit
